

Host Country Impact Study: Togo

Host Country Impact Study was designed to assess the degree to which the Peace Corps was able to meet the needs of the country in developing educational capacity, in improving health outcomes, and in promoting a better understanding of Americans among host country nationals. The study was intended to provide the Peace Corps with a better understanding of the TEFL Project, and to identify areas for improvement.

S. Peace U.S. Peace Corps** 2.3 DATA Our analysis covers 28 developing countries for the period 1989 through All variables except the political risk indicators, host country institutions, the Guinea-Bissau, Kenya, Malawi, Sierra Leone, South Africa, Togo, Uganda, in training or employment creation at a cost host countries could never afford. One case in point is an ILO labour-intensive project in Togo settling young farmers of over US\$4,000 per settler, which is clearly beyond the means of the country. Another World Bank study reports on the findings of a recent analysis of the
