

Escape from Earth: New Adventures in Space

Imagine a world where interplanetary travel isn't just possible—it's commonplace. Human beings have terraformed Mars. You can reach into another dimension through a wormhole. The virtual world can be the only place where you exist, because you don't have a body. The possibilities are endless. *Escape from Earth*, inspired by Robert Heinlein's juveniles, featuring stories by Orson Scott Card (*Enders Game*), Elizabeth Moon (the *Vatta* books), and Joe Haldeman (*The Forever War*), among others, will take you places beyond your imagination.
