

# The Orion Regressions

The Orion Regressions Is a full transcription of five regression sessions conducted by Dr. R. Leo Sprinkle that explores Stan Romaneks contact with extraterrestrial beings. Although Stan Romaneks first book, international bestseller Messages: The Worlds Most Documented Extraterrestrial Contact Story, talks about his experiences, it also sets the stage for things to come that would lead up to The Orion Regressions! Unlike most regression sessions, something extraordinary happened, and it would become apparent that a consciousness other than Stans was using his body to communicate. The Orion Regressions is a companion book to Stan Romaneks follow-up book, Answers: The Worlds Most Documented Extraterrestrial Contact Story Continues, and contains messages given through Stan by beings claiming to be True Orions. These beings brought forth a wealth of information vital to humanity. The richness of this amazing information could only be realized fully by compiling the transcripts word for word in a book worthy of the information.
