

# The Museum Vaults: Excerpts from the Journal of an Expert

The next volume in the striking collection in co-publication with the Louvre museum. An art assessor must evaluate the vast collections of the Louvre in an alternate Kafkaesque world where all is warehoused in an endless ever deepening succession of basement levels. Mathieu, an artist who marries Escher with Kafka, brings stinging irony to the pompousness of art history. After Glacial Period, another stunning volume. Fully the equal of the first book in the series, the extremely talented Nicolas De Crecy's Glacial Period. ONE OF 30 BEST ADULTS BOOKS FOR HIGH SCHOOL STUDENTS `this story has visual puns as well as real insight on art-preservation efforts, resulting in an inspiring and inspired tale.` -School Library Journal
