

Demystifying the Mystical: Exposing the Myths of the Mystical and Supernatural by Providing Solutions to the Spirit Path and Human Evolution (The Evolution of Consciousness Book 3)

This third installment of The Evolution of Consciousness series walks the reader through the hard processes required to advance their own cognitive awareness. The book is hard-hitting truth and it is not designed for the timid where spirituality is concerned. If the reader is not totally dedicated to understanding and achieving a higher state of cognitive awareness without the need of mystical or supernatural answers, then this book is not for you. This volume is written strictly for those most serious in understanding spiritual advancement. This book is not written for the spiritual novice, nor is it written for those who want to continue to engage in fanciful ideas of the mystical or magical where spiritual understanding is concerned. This work is for the most serious-minded individuals on their personal spiritual path to higher cognitive awareness. This book offers serious criticisms of the present system of cognition that rules the consciousness of all humanity. The author identifies the root cause of all that ails humanity and he provides workable solutions for those who are totally pragmatic and dedicated in their approach to spiritual understanding. This book is going to anger most readers at some point as the information unfolds, but if one has the stamina and the personal courage to face the information presented, the reader will find what it presents is an invaluable source of information and spiritual tools to help their personal conscious advancement. This book is designed to remove all the mysterious myths of mysticism and the supernatural that permeate all religions and spiritual studies. If the reader feels they cant handle having all these myths exposed, then this book is not for you. It is only for the most courageous of readers because it exposes every myth, even the myths the reader believes about themselves.
