You are considering investing on a property in Paris? Buying a pied-a-terre in Paris can be a lifetime project. However, the cultural difference can be huge hassle filled with obstacles. Based on my personal experience I explain you in this book everything you need to know with no gibberish. In this book I will describe clearly the steps to carry out your project on purchasing your real estate dream in Paris as I did myself in November 2013, from the first research until the signature of the deal. I add screenshots and examples of real estate deals from friends, colleagues, acquaintances or myself. I give tools and articles to help you build your own project.
