

Wellbeing for Writers

A short practical guide about how to enjoy the journey to becoming a published author, and how to cope with challenges such as lack of time for writing, lack of inspiration, negative criticism, and aversion to marketing. Jennifer's experience as an author of both fiction and non-fiction books, combined with many years of working with clients in various therapeutic settings, has given her a wide personal understanding of the psychology of writing. This little book includes many practical tips for making the process run smoothly, and enhancing mental and physical wellbeing.
