

How the World Was: A California Childhood

In 1994, French cartoonist Emmanuel Guibert befriended an American veteran named Alan Cope and began creating his new friends graphic biography. Alans War was the surprising and moving result: the story of Copes experiences as an American GI in France during World War II. How the World Was is Emmanuel Guiberts moving return to documenting the life of his friend. Cope died several years ago, as Guibert was just beginning work on this book, but Guibert has kept working to commit his friends story to paper. Cope grew up in California during the great depression, and this remarkable graphic novel details the little moments that make a young mans life...while capturing the scope of America during the great depression. A lyrical, touching portrait, How the World Was is a gift for a dear friend in the last moments of his life... and also a meditation on the birth of modern America.
