

The Kingdom of Heaven as Seen by Swedenborg

This is a remarkably well written and readable work, which, while apparently designed for those not acquainted with Swedenborg's theological writings, will, we imagine, prove of the greatest interest to those who are already students of Swedenborg. Among the problems of surpassing interest that are discussed by the author in a most entertaining and non-dogmatic fashion are, the nature of the spiritual world, the problem of evil, the degrees of the human mind, the Incarnation and the Second Coming. The New Philosophy, Volume 17 Presenting the main principles of Swedenborg's teachings in the simplest possible way, and practically a guide-book to his Heaven and Hell. The book gives a conception of the system of thought Swedenborg expounds, and makes clear the many unfamiliar statements met with by a student of his theology. The Spirit of Missions, Volume 81
