

2006 Coding Workbook for the Physicians Office

This workbook contains coding exercises that reference each section of the CPT-4 and ICD-9-CM coding manuals. Exercises requiring HCPCS Level II codes are also provided. Condition and procedure statements in the exercises reflect the current annual editions of the coding manuals. By completing the exercises, you will expand your medical vocabulary and increase your coding skills, and will learn to code only what the documentation supports. Also included are the Center for Medicare and Medicaid Services (CMS) guidelines for diagnosis coding and reporting by physicians. You will need current CPT-4, ICD-9-CM, and HCPCS coding manuals to complete the exercises.
