

The Dwellings of the Poor and Weekly Wage-Earners in and Around Towns (Classic Reprint)

Excerpt from The Dwellings of the Poor and Weekly Wage-Earners in and Around Towns Believing that the most important duty of sanitary authorities is the control of building operations, and that it is better to prevent the erection of insanitary dwellings than to attempt the correction of their defects when built, I have no hesitation in writing a few words of introduction to Mr. Worthington's truly admirable and most comprehensive treatise. A treatise by an architect, whose published work has already shown a keen appreciation of the artistic side of his profession, but who, nevertheless, is impressed with the fact that a house has not merely to be looked at, but also to be lived in, must be hailed with satisfaction.
