

# Test of Faith: Science and Christianity Unpacked- Study Guide

Test of Faith is an innovative new resource to help small groups explore the issues raised by science for both faith and ethics, encouraging open discussion of a range of views. It introduces a wide range of hot topics including: Are science and Christianity in conflict? Has the Big Bang pushed God out of the universe? What does creation mean? Is evolution compatible with religious faith? Is cloning ethical? Are humans no more than biological machines? This Study Guide is designed to accompany the Test of Faith course. Full session notes are provided in the Leaders Guide. Samples and DVD trailer at [www.testoffaith.com](http://www.testoffaith.com)
