

Psi Trek : A World-Wide Investigation into the Lives of Psychic People and the Researchers Who Test Such Phenomena as Healing, Prophecy, Dowsing, Ghosts, and Life After Death

We dont know what Psi is, but we know that it works. It is being used in myriad ways, every hour, every day around the world. Intrigued by the paradow, author Laile Barlett set out to investigate the world of Psi. After hundreds of interviews both here and abroad, she has written the most comprehensive report on Psi and how it works that has been prepared in date. Dr. Bartlett details what is going on in Psi research centers in various countries. She reports on the publics attitude toward Psi. She tells of spontaneous cases of Psi - psychic experiences down through the ages to the present day - as well as current research methods and findings. Dr. Bartletts book is about psychics yes -but it is also about dowsers, healers, ghosts, life after death, and the scientists and researchers concerned with these matters.
