This book is a useful guide for people who want to cheat or find out if they have been cheated on, and a few helpful tips on making a relationship work so you don't need to cheat. You will learn what to say, what to do and what not to do. All the information in this book has been used in real life and is proven to be effective. You will find out how not to get caught, how to lie, how to use your friends as alibis, how to cover your tracks and most of all, what to do when it all goes wrong. The second part of this book will guide you on how to find out if you think your partner is cheating on you. I will teach you surveillance, (as used by real Private Detectives) how to set a trap, what signs to look for, computer checking and gathering the best evidence to reveal your cheating partners sordid activities. Finally the third part gives a lot of help on relationship troubles, from the moment you first meet, right down to starting a family.
