

After This: When Life Is Over, Where Do We Go?

Claire Bidwell Smith follows *The Rules of Inheritance* with *After This* an exploration of the afterlife that is part personal and part prescriptive, an invitation on a journey into the unknown. In her therapy practice specializing in grief, Smith confronts the quandary of what happens next. In a dynamic five-part structure, she answers the unanswerable questions Will I ever see my parents again? Can my parents see me now, even though they are gone? Will I remain connected to my own daughters when I die? for herself and for all of us. Chronicling our steps along the path that bridges this world and the next, she undergoes past-life regressions, sessions with mediums and psychics, and immerses herself in the ceremonies of organized religion and the rigors of scientific experimentation. *After This* is unique in the power of the personal that underlies the book's message: what we believe about what happens next affects everything about how we live and love right now.
