

Bedtime Stories For Kids - Book 1: Close Your Eyes (Guided Meditation: One short story per evening will calm the mind and help your child fall asleep fast.)

Bedtime Stories For Kids - Book 1: Close Your Eyes (Guided Meditation: One short story per evening will calm the mind and help your child fall asleep fast.)

The book, *Bedtime Stories For Kids - Book 1: Close Your Eyes* (Relaxing Adventures: One short story per evening will calm the mind and help your child fall asleep fast.), was written out of necessity to provide children and their parents with a pleasant and peaceful evening experience. Evening time can be extremely stressful for families, because children often have trouble getting to sleep, even though they are tired, and become cranky because of it. Also, not only children become tired in the evening, the same happens to parents after a long and busy day. That's why relaxing bedtime stories for children are child- and parent-friendly. Adventure stories provide parents with a small trick that helps them motivate their children to quickly go to bed. Through beautiful adventures like: playing in tall grass, swimming with colored fish, playing with fluffy kittens, flying with a flying horse, going into space, traveling around on clouds, observing a mighty waterfall, playing in the snow, etc., the Kindle short stories occupy children's minds with positive experiences, calm them down and lull them to sleep. In recent years, many recognized authors such as: Louise L. Hay, Deepak Chopra, Dr. Wayne W. Dyer, Connie Bowen, Eric Pearl, etc., have stressed the connection of our mind and body and showed us the healing possibilities inside us. Even the medical world is beginning to understand how our mind influences our body and is slowly willing to accept it. These kids bedtime stories try to follow this knowledge and add a new positive, adventurous dimension; adjusted especially for children. These short stories include elements of meditation, positive thinking and affirmations for kids, which relaxes their minds and helps them to accept themselves as they are - all while helping to release them from their problems and at the same time, find an appropriate solution. The support we give kids through short

bedtime stories for kids bring them inner peace, awareness of their positive core and strengthen their self-confidence, which results in helping them to fall asleep easily. All these stories begin with the sentence: Close your eyes. Take a few deep breaths. Breathe in slowly, hold your breath for a second, and then slowly breathe out. Repeat three times. Deep breathing by itself is one of the best ways to lower stress in the body. By using childrens imagination, the stories take them to the adventures they adore: from helping the stork deliver a baby, to playing in snow tunnels, sledding down the roof, dancing with the stars and the moon, playing with a colorful butterfly, collecting interesting stones from the beach, etc. All the stories end by saying: Good night and sleep tight. Love you. In this way each night, we let our children know they are important to us and that we love them. These short bedtime stories were written especially for Kindle, out of the authors needs and experiences as a mother. The author still has to tell these kind of stories to her kids every evening, now aged 8 and 10. Although the stories are short, they sometimes both fall asleep before the story is over. Even if they dont, they can stay in the adventure they have pictured in their minds a bit longer and enjoy it even after they get their final good night kiss. This is one of those great kids books for Kindle that will truly add value to any life, and were sure both parents and their kids are going to love it.
