

The Heart of Islam

The Heart of Islam is an exposition of the A-Z or Islamic Religion in the sense that it combines both the historical and spiritual perspectives of Islam. The eighteen chapters discuss holistically the fundamental, technical, and spiritual questions begging for answers, which are hitherto left to the conjecture of readers by other authors of similar books. The author brought the several decades of legal training and practice to the fore by making the book easy to read and comprehend even by laymen and non-Muslim readers. There is no doubt that the book is a Must Read to every Muslim as well as non-Muslims because it will endure the test of time while fortifying the readers with enough to chew about Islam.
