

Expecting Your First Child: How to Survive Your First Pregnancy

Well, congratulations! This is something you'll be hearing a lot of if you're expecting, and with congratulating being an expression of praise for an achievement or good wishes on a special occasion, you might start to get dizzy as you feel the unknown becoming more and more a reality. Your achievement surely wasn't just conceiving, though. Be reminded that the praise you deserve is for a true miracle being manifested within you and for your passage into a divine arena: motherhood. So please, warmly reflect on this and humbly take your place walking with your head held high as a Queen of sorts, for this will be one of the most joyful, rich and special times of your entire life.
