

The Football Manager

The Football Manager is a comic novel about the men and women in the world of British soccer, the sexism, the culture of inflated egos and money-making. The manager, John Brand is successful, arrogant, and hates the press who are making his life a misery. Hes a womaniser, a loud-mouth, but as long as hes winning football matches hes in demand to manage football clubs. When he is poached to manage a rival club he makes the mistake of starting an affair with the Chairmans wife. Not only is his new job are at risk, the newspapers sense blood and are looking for an opportunity to ridicule him. The Football Manager is also a satirical look at the world of football club management; power-mad managers, ego-driven chairmen, overpaid players, and the press pack hungry for salacious stories. Other players and managers who are professional and excellent role-models quietly running clubs do not make the headlines; the press wants to rubbish football stars, and prey on footballers wives to sell papers. When Nathan Langton, one of John Brands team goes missing, press interest intensifies. The Manager of Weston United becomes embroiled in the murky world of football wheeling and dealing, international politics, and his relationship with his wife and son breaks down. What can he do to save his own reputation? And should his club pay a ransom for the return of his kidnapped player? The Football Manager is a fast moving story about ambition, double-dealing, the fickleness of football fans, and a probing satire about crime and corruption about Belarus in the former Soviet Union. Some of Brands players are arrogant, others are hard-working athletes, and Brands bullying attitude shocks and alarms his dedicated players. Can Brand change or is he destined to be destroyed by the forces around him?
