

Visions of Reality: Art of Synthesis

Far more than a book, Visions of Reality - Art of Synthesis is an invitation for you to partake in the secret of life itself, and life in this instance is you, the reader. The relationship you have with the material held within its pages enables it to be transformed and taken forward into your world, to create your reality. YOU, quite literally, breathe life into the form. A synthesis of striking image, symbol and poetry, grounded in ancient wisdom from timeless spiritual traditions, it leads you onwards to surrender all, in favour of that which you know to be your true essence. If you value all that is light and true, and sincerely seek to move beyond the confines of separation consciousness, then please open your heart and accept this invitation... Have you the courage? Dare you be free? ...one of the most original books that I ever read and I have been fascinated by its content. The pictures, together with an almost poetical text, will help the reader to enter a spiritual consciousness that will lighten the mind on the journey through this life. Ann Richards, Apple Pips Editing Services. Barbaras work organically invites a process of unfolding timeless inner wisdom...it enables a process of awakening the inner teacher and connects profound understanding from the light of truth of our own inner source into our daily challenges. Ronald Holt. Director Flower of Life Research USA. It is rare to find a book of this genre that can be worked with wherever you are on your spiral of development, a book of wisdom that generously empowers you to see your own inner sacredness. Both transpersonal and Alchemical, it really does what it says on the cover; it is the Art of Synthesis Angela Morse. Flower of Life Facilitator. UK www.visionsofreality.co.uk
