UFO: The Search for Truth asks the vital question: Are we alone in the Universe? Now at last Pat Regan's pioneering new book: UFO: The Search for Truth takes this single and most vital enquiry to the next phase. Pat Regan addresses the UFO phenomena in a realistic and straightforward manner, working with such prominent authorities in this field as Nick Pope (top UFO investigator), Lloyd Pye (Starchild Project) and the UFO Hunters TV team from the US. In UFO: The Search for Truth you will discover evidence of a Humalien; numerous international UFO sightings; government apathy towards unknown danger to our air space; time travellers; plus an impressive mass of public UFO accounts logged in great detail. UFO: The Search for Truth will change the way we observe our historical place in the Cosmos. This book is no dry analysis of a quaint mystery. Its a muscular thesis that isn't afraid to take on the difficult issues and ask the questions that more traditional UFO researchers have avoided. Buckle up, readers, and get ready for one hell of a ride. (World-renowned UFOologist, Nick Pope) Pat Regan's own first-hand experience and his research into the MoD UFO files make his book a very authoritative read. (Bill Birnes, UFO Hunters, UFO Magazine) Pat's authoritative research into the darkest corners of the UFO phenomena cuts right to the heart of the matter and is a long overdue assessment of this complex phenomena (Andy Russell, Top UFO Researcher)
