

Why Follow Rules?: Trust your Intuition

Why do we follow rules and organised systems so blindly and so willingly? Why do so many of us draw our sense of worth from the opinions of others rather than from ourselves? Why do we ignore the most important resource we will ever have: our intuition? Through a series of eight questions, you are invited to consider these points and to embrace this extraordinary ability that we all possess. Now more than ever we need original thinkers unconstrained by standards, rules and conventional thinking. Its time to reflect, and to reconnect with the one person who can make it all happen - you. This book is a re-modified and updated version of my earlier book *Cultivating Intuition*, published in 2013.
