

Slipping Away: Complete Parents Guide To Recognizing Teen Drug Experimentation and Abuse

Through my own addictions and the addictions of others, I will expose the secrets your teen does not want you to know. This parents guide is written solely from confidential interviews by current and former drug abusers along with my personal drug abuse experience. I went straight to the real experts, the drug users themselves. Have you noticed a change in your teens attitude and/or behavior? Do they seem more withdrawn than usual? Have you noticed a sudden change in their appearance? Do you find yourself questioning the friends your teen is hanging out with? I discuss the slang your teen will use when talking to their friends, paraphernalia your teen may leave lying around their room or in their trash can, along with the physical and behavior changes that your teen will go through. I go beyond the basics and will show parents like you exactly what you need to pay attention to. I have taken my teenage mistakes and the mistakes of others and turned them into a message for all parents. I am on a mission to bring awareness to the growing drug problems that face American teens today.
