

How Embracing Your Grown-Up Self Deepens Your Love, Strengthens Your Partnership

Effective communication strengthens relationships. Like a good workout, building the muscles of a strong, mature adult self is a necessary foundation on which to grow relationships. Learning how to build the muscles of a strong, mature adult self is crucial for Big Picture professionals and partners. It is only when you can relate to others from a mature place that you can create and achieve individual and mutually satisfying goals. In this Kindle ebook we are going to explore the importance of establishing a solid foundation of individuality, of developing a solid, whole adult self, so that you can become more intimate, creative, and connected at home and in your work life. We'll also talk about how you can achieve and exercise the muscles of this adult self, and improve your relationship dramatically by doing so.
