

The Bumper Bundle of Manchester City Stories: 2008-14

In 2008, in a land not very far away, an ailing football club down on its luck won the lottery and changed the lives of those around them forever. This book is the story of Manchester City from 2008-14 through the humorous articles I wrote during that time. It looks at the vitriol the club attracted after they were taken over six years ago as Thaksin Shinawatra fled to the east. It also looks at the wider game, from the role of social media in the modern game to City's illustrious neighbours down the road, who finally gave City fans something to laugh about over recent years. But most of all, it's just light-hearted observations on City and football as a whole. By purchasing this book, you can be assured that all profits will be shared between two wonderful charities: The Neuro Foundation, which helps people suffering from neurofibromatosis, which is the name for a number of genetic conditions that cause tumours to grow along your nerves, and secondly for Macmillan Cancer Support, who you will probably know more about. Contains: The Bumper Bundle of City Slurs Football In The Bible MUTV Listings How To Be An ITKer World Cup 2014 Review The Louis Van Gaal quiz And much, much more The book contains five articles not previously published.
