

Baby And Toddler Learning Fun: 50 Interactive And Developmental Activities To Enjoy With Your Child

Its never too early to share the joy of learning with a child! Sally Goldberg gives parents the tools to provide such rewarding experiences in an organized, fun way with this special book. Here are more than fifty entertaining activities to enjoy with very young children, with instructions for making the toys needed for play. Baby and Toddler Learning Fun also provides smart tips for enriching the home environment in other ways for babys learning. As children grow, the activities can be easily adapted so they remain as much fun for a toddler as for an infant. Its quick and inexpensive to make the toys out of the stuff infants and toddlers already enjoy looking at or handling-plastic containers, stiff paper, brightly colored scraps of material, and other household items. This hands-on book not only helps parents teach babies important concepts about colors, shapes, letters, and numbers, but also brings parent and child closer through engaging playtimes. The activities arent to be used as drills but rather as part of dynamic play that parent and child will enjoy. Charts help parents keep track of concepts as they are introduced. The activities are equally appropriate for children with learning delays.
