

# Healing Grief - A Mothers Story

Healing Grief tells the story of one woman whose journey takes her from tragedy to a new vision of her life's meaning and a reinvestment in joy. When her 15 year old son, Mike, died suddenly Rosalie was thrust into grief and a world she had no preparation for. All she wanted were mothers stories to give her hope. She found none. Her own journal became this book. This book offers practical dynamics for coping with the sudden death of a child, wisdom from the inspired, and fresh insights into each stage of grief. It is not only for parents who are actively grieving but for anyone who wonders about the meaning of dreams, inexplicable impressions, death, and life itself.
