

The Secret Asset

Regardless of whether your net worth is \$100,000 or \$1 billion, you can create and perpetuate previously unimaginable amounts of wealth for you and your family. How? Through what financial and insurance expert David D'Arcangelo calls the secret asset. The family you are about to meet may be fictitious, but the insurance strategies used are not. In fact, they are the same ones David employed to help his parents, grandparents, and brothers generate over \$170 million in additional net worth. In *The Secret Asset*, you will see how David optimized the performance of life insurance policies for his typical all-American family to make \$12 million for his father's parents, use the \$1.3 million cash in a policy on his mother's parents to generate a \$12 million gift to a university, generate over \$33 million in estimated tax-free income for a little over \$3.5 million, create a pension rescue strategy that generated an additional \$12 million tax-free, and turn an estimated \$65 million estate after tax into a \$182 million tax-free windfall. This can be your family's story! *The Secret Asset* is, ultimately, a story about creating wealth by betting on yourself. And why not bet on yourself? No one else is going to make you wealthy. By learning David's strategies and seeing the truly astounding financial figures possible, you will permanently change your thinking about how you can create and perpetuate previously unimaginable amounts of wealth for you and your family.
