

Annals of Life Insurance Medicine 5: Special Edition Proceedings of the 11th International Congress of Life Assurance Medicine Mexico City 1973 (English, French and German Edition)

In the preface to Volume 1 of the Annals of Life Insurance Medicine Dr. MAX E. EISENRING described the goal of this publication as follows: Any project which aims at contributing substantially to the modern science of medical underwriting can do so only if the many people preoccupied with these problems throughout the world join forces to the ultimate benefit of those most in need of life assurance. In an endeavour to keep the life insurance medical directors all over the world informed of the developments in the field of life insurance medicine, we have decided to publish the papers which were presented at the 11 th International Congress of Life Assurance Medicine in Mexico in 1973 in Volume 5 of the Annals. We are most grateful to Dr. J. REN06N, President of the Organizing Committee of the Congress in Mexico for having consented to our publishing the proceedings of the Congress in a special edition of the Annals. It is a source of great satisfaction to us that in this way a much larger circle of life insurance medical directors can be reached than would have been the case if only the participants themselves were to receive the proceedings of the Congress. Dissemination of the results of medical research on an international basis, in particular those findings that have a bearing on life insurance medicine, is one of our foremost aims.
