

Sufi Metaphysics and Quranic Prophets: Ibn Arabi's Thought and Method in the Fusus al-Hikam

The Fusus al-Hikam is acknowledged to be a summary statement of the sufi metaphysics of the Greatest Master, Ibn Arabi (d.1240). It is also recognised that the Fusus is a work of great complexity both in its ideas and its style; and, over the centuries, numerous commentaries have been written on it. Each of the chapters of the Fusus is dedicated to a Quran prophet with whom a particular wisdom is associated. In Sufi Metaphysics and Quranic Prophets: Ibn Arabi's Thought and Method in the Fusus al-Hikam, Ronald Nettler examines ten chapters from the Fusus which exemplify the ideas, method and perspective of the entire work. Concentrating on a detailed analysis of the text, the author brings out the profound connection and integration of scripture and metaphysics in the world-view of Ibn Arabi. Sufi Metaphysics and Quranic Prophets serves not only as an explication of Ibn Arabi's thought in the Fusus, but is also a great aid in the overall understanding of Ibn Arabi's thought.
