

The Importance of being a Red!

This is a book by a fan for the fans, taking a humorous journey through anecdotes and personal memories from the glory days of the 1970s and 80s when as a child we all dreamed of playing in the hallowed ground of Anfield and putting on the Red shirt that meant so much. I explain how being a fan is in the blood, from my Grandfather born within earshot of Anfield to my own daughters first unborn kick as Stevie Gerrard scored a goal. I explain what it means to wear the famous red shirt to a local fan, and explore the difference between great players and legends. I also touch on fair weather fans, including one family member who claims he was brainwashed. We travel on through the pain of two disasters, and personal tragedy to looking forward with renewed hope to the future. Whether you are a fan of Liverpool FC or just a sports fan in general there is something for you in here.
