

A Doula's Journey: Into the World of Birth

In this captivating chronicle of a doula, Sarah Goldstein reminisces about being on call to serve women before, during and after labor. There are no breaks or time off in this profession. It is a memoir that both the novice and the informed will be unable to put down. Often torn between her life calling, and her family, Sarah is even further challenged by being in a sandwich generation. She is raising six children while caring for her ever-worsening Alzheimers mom. Yet with family support at the most trying of times, she experiences both the trials and triumphs of facilitating mothers in bringing their newborns into the world.
