

Nutricion/Nutrition: Guia para facilitadores (De Madre a Madre: Prenatal Care Photonovel Series n? 3) (Spanish Edition)

In the De Madre a Madre prenatal care photonovel series, Lupe and her family and friends tell their stories about being pregnant and having a baby. In this photonovel, Lupe and Rosa, Lupes sister-in-law, go food shopping. Rosa explains the Women, Infant and Childrens (WIC) program, a special supplemental nutrition program in the United States, for eligible low-income women and their infants and children up to age five and how it works. On the way home, they talk about some of the pressures and stress in everyday life and things they do to feel better. Also included: Steps you can take to make your diet healthier for you and the whole family, tips for taking prenatal vitamins if they make your stomach upset, and soft cheeses to avoid during pregnancy. This companion facilitator guide is designed to help you facilitate a group session using the Teach-With-Stories Method and the De Madre a Madre photonovel on nutrition and wellness during pregnancy. The guide includes: the photonovel, suggested stopping points and discussion questions for each segment of the story, detailed instructions to implement the five steps of the Teach-With-Stories Method, and supplemental field-tested activities for more in-depth learning related to the photonovel topic.
