

# Passionate Reason: Making Sense of Kierkegaard's Philosophical Fragments (Indiana Series in the Philosophy of Religion)

Johannes Climacus, Soren Kierkegaard's pseudonymous author of *Philosophical Fragments*, invents a religion suspiciously resembling Christianity as an alternative to the assumption that humans possess the Truth within themselves. Through this literary device, Climacus raises in a fresh and audacious way age-old questions about the relation of Christian faith to human reason. Is the idea of a human incarnation of God logically coherent? Is religious faith the product of a voluntary choice? In a comprehensive discussion of one of Kierkegaard's most important books, C. Stephen Evans elucidates Kierkegaard's novel explanation that the tension between faith and reason must be understood as a consequence of the passionate character of reason itself. *Passionate Reason* situates Kierkegaard's philosophy in the context of postmodern religious thought, providing a contemporary reading of *Fragments* as a challenge to both the modern Enlightenment critique of reason and the postmodern abandonment of truth.
