

# The Death of Evolution: Restoring Faith and Wonder in a World of Doubt

This groundbreaking new book--- The Death of Evolution: Restoring Faith and Wonder In A World of Doubt ---reveals how a growing number of scientists see faith and science as complementary, providing an inspirational reaffirmation of faith for you and for Christians the world over. For decades, Darwinian evolution has been taught in classrooms as gospel. But now, 150 years after the publication of Darwins The Origin of Species, renowned scientists are acknowledging that evolution is not only theory but speculation that has led to false conclusions about creation, science, and culture. There is change in the wind. As a scientist, you grow to assume that science will answer everything and that religion is fictional. There are mysteries that science cannot explain ... and divine inspiration may be a rational explanation. --Dr. Andrew Parker, Biologist, Oxford University The Death of Evolution is not a broadside polemic against Darwinism. Rather, it is an inspirational reaffirmation of faith that will restore your sense of wonder and awe.
