

The World of Catholic Renewal, 1540-1770 (New Approaches to European History)

This second edition features an updated synthesis of the vast scholarship on the history of Catholicism from the Council of Trent in the middle of the sixteenth century to the suppression of the Society of Jesus in the eighteenth century. The book covers the doctrinal and ecclesiastical renewal after Trent and the progress of Catholic reconquest in various lands. It also analyses the social composition of the Tridentine clergy and the papal curia and studies the making of early modern sainthood and the enclosure of religious women. An additional chapter on The Catholic Book as well as an updated bibliography are included.
