

# Dictionary of E-Business: A Definitive Guide to Technology and Business Terms

In a fast-moving technical environment like multimedia and the Internet only exactitude can guarantee success. An almost correct specification is a wrong specification. Make total accuracy your IT signature with this invaluable guide. It offers detailed definitions of the bewildering array of terms and phrases relating to the Internet, plus short articles to explain more complex topics. Covering graphics, sound and data- you'll never fall victim to fuzzy thinking again. New and emerging areas are included such as electronic commerce, security, creating DVD discs, and briefs on new business applications and services. No need to risk disastrous misinterpretation when one can have total accuracy at ones fingertips. Over 2500 references and 35 illustrations Explains new and emerging technologies Bridges the gap between definition and explanation Provides useful tradename information In-depth entries illuminate specific topics
