

MBA Concepts and Frameworks - Tools for Working Professionals

This book is a must-have desktop guide to the foundational principles found in MBA programs from some of the best schools in the world. The book presents frameworks from the basics of Economic Decision-Making, Economic Policy-making, through Business Strategy & Technology Strategy formulation, to Accounting for Business Performance, Finance, and International Management in a succinct format that allows the reader to grasp the main concepts without spending hours and hours reading. The objective of this book is to give you the fundamental building blocks of an MBA education so, as a working professional, you can become more effective in solving business problems with the same maturity often found in executives with years and years of experience.
