This is more than just a camping guide. Loaded with great advice, this preppers survival guide covers the fundamentals for enjoying the outdoors with just a few simple tools. With the survival skills you'll acquire from this book, you will learn more than just backpacking or how to build a fire. You will learn how to be one with nature and fully appreciate the outdoors experience. The bushcraft basics that you will learn from this survival guide will be a great start for you to explore the wilderness like you've never experienced before. Here Is A Preview Of What You'll Learn... Man vs. Self (The Right Attitude) Man vs. Technology (The Most Basic Things You Need to Have) Basic Physiological Needs Survival Kit Man vs. Nature (Know the Wilderness by Heart) Wild Animals Must-have Skills in Bushcraft Creating a Bonfire Much, much more! Download your copy today! Check Out What Others Are Saying... This book is a beginners guide in surviving the Bushcraft life in the wilderness. -- Sabrina Angerstein I am not really into... camping. Until I read this book. I thought it was really difficult, but the book gave so much information on survival skills. It is always best to know a lot of things about survival because you will never know when and where you will have to use them. -- Joanne Aguilar This was a great book for anyone that wants to go camping out in the wilderness. I have just started going out camping with my dad and we go to pretty high level places, where there is lots of

animals. This was a an awesome guide on how to survive out there if something ever happened and some on the things Tony talks about was awesome to know about. I highly recommend you get yourself a copy of this book, very worthy -- Jack Johnson
