

# The Ten Percent Solution: Simple Steps to Improve Our Lives and Our World

This short, powerful work is potentially life changing, for it is filled with simple solutions to the difficult problems that confront us ? individually and globally. Marc Allen offers clear, doable solutions to both our personal financial problems and global problems. Key to many of these solutions is both saving and giving away 10 percent of our income, also known as tithing. By taking the kinds of actions recommended in this book, we can not only achieve financial security but also contribute substantially to a better world as well. The Ten-Percent Solution shows us how to become part of the solution, rather than part of the problem. The rewards we receive along the way are limitless ? both personally and globally.
