In the year 2032, John Connor and his resistance forces wage war against Skynet, a soulless super-computer bent on exterminating mankind. Sensing ultimate defeat, Skynet goes into hiding. Centuries later, it is awakened by stealth Terminators posing as human scientists. Now an even deadlier Skynet is using the science of the far future to create invincible Terminators by gene-splicing their human tissue with the DNA of the deadliest creatures in the galaxy -- Aliens! Earth's only chance lies in the hands of a legendary heroine named Ellen Ripley and an uneasy alliance with another deadly non-terrestrial race, the man-stalking super-hunters known only as Predators! The Predators understand that Skynet threatens all life in the universe, and so they wade in on the side of humanity...but can these feral killers be trusted? Collecting the four-issue series.
