

Career Diary of a TV Show Host: Gardners Guide Series

This series examines a wide array of professions; each book goes behind the scenes and on the job with a professional in a particular field. These books provide a glimpse of some of the projects, challenges, and rewards of a job on a day-to-day basis. An intimate look at the life of a television show host, this diary follows 30 days in the life of a writer and associate producer who stars in her own half-hour home and lifestyle show in a top Dallas television market. The diary makes its way through typical schedules and meetings, tells the key to creating a natural and engaging onscreen presence, and reveals secrets about how to break into the industry, generate press, and build a loyal audience.
