

Blissful Birth Hypnobirthing Programme

The Blissful Birth Hypnobirthing Programme will help you overcome any fears and unnecessary tension you have about giving birth, and will teach you how to gain more control over your mind and body so you are fully prepared for your baby's birth. We'll start off by explaining how your mind can influence your body, and the effect of your thoughts and beliefs. We'll then move on to the role of fear, and how to safely identify and overcome your fears. Next, you will learn self hypnosis and relaxation, which will provide you with a sense of control and empowerment over your mind and body, both during your pregnancy and when you are giving birth, as well as techniques to help you to manage pain in labour. You'll learn how to relax, remain calm and in control regardless of what is going on around you. Ultimately, you will increase your confidence and your belief in yourself, allowing you to make the experience of giving birth calmer and more positive. And what's more, research confirms that women who use self hypnosis are more than twice as likely to be satisfied with labour pain management than other women. Finally, we will cover some of the practicalities of giving birth, such as birth plans, stages of labour, tips for a positive birth experience, and words to avoid.
